DETAILED ACTION

1. In an amendment date, July 20th, 2007, the Applicants cancelled claims 1-2, 7 and 10-17. Currently claims 3-6 and 8-9 are pending.

EXAMINER'S AMENDMENT

2. An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it **MUST** be submitted no later than the payment of the issue fee.

Authorization for this examiner's amendment was given in a telephone interview with Kevin Kunzendorf on July 27th, 2007.

The application has been amended as follows:

In claim 8, line 8, please replace "inversion" with --noninversion--.

Allowable Subject Matter

3. The following is an examiner's statement of reasons for allowance: independent claims 3, 4, 5 and 8 all disclose a similar display control circuit. The prior art taken alone or in combination does not teach:

a display control circuit comprising: four or more sets of comparators to compare, inversion and noninversion bits of previous and subsequent display data;

wherein two or more selectors output the results of the comparisons based on control from one another;

further more including an output circuit which outputs an inverted or non-invert signal based on the outputs of the two or more selectors;

and finally including a parallel-to-serial conversion circuit to serialize the output of the output circuit into two-bit units to output it as the output video data and an output inversion signal.

With respect to claims 6 and 9, these dependent claims are allowable for at least the reasons shown above.

4. Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
